

## Company Timeline

November 3, 2011	Controller Sensors LLC established
November 28, 2011	Purchase of AutoTran Inc assets completed
December 13, 2011	First product shipment for HVAC application, Series 860D pressure transducer (transmitter) product shipped to Stromquist in Atlanta GA USA
December 20, 2011	Agreement with CGNA (Control Group North America) to be a preferred supplier
December 21, 2011	First product shipment for medical application, Series 860D pressure transducer (transmitter) product shipped to Sparton Medical Systems in Strongsville OH USA
January 6, 2012	First shipment to Canada, Series 750D high accuracy, auto zero pressure transducer (transmitter) product shipped to Quebec
January 9, 2012	First international shipment, Series 750D high accuracy, auto zero pressure transducer (transmitter) and Series 860D pressure transducer (transmitter) product shipped to Netherlands
January 27, 2012	First shipment to Korea, Series 750D high accuracy, auto zero pressure transducer (transmitter) product shipped to Seoul
January 27, 2012	First shipment to New Zealand, Series 750D high accuracy, auto zero pressure transducer (transmitter) product shipped to Auckland
January 27, 2012	First shipment to higher education marketplace, Series 750D high accuracy, auto zero pressure transducer (transmitter) product shipped to Macalester College
January 2012	Increased satisfied pressure transducer (transmitter) customer base to over 30 customers

February 6, 2012	First shipment to Italy, Series 860D pressure transducer (transmitter) product shipped to Milan
February 6, 2012	First shipment to Taiwan, Series 860D pressure transducer (transmitter) product shipped to Taipei
February 6, 2012	First shipment to Philippines, Series 860D pressure transducer (transmitter) product shipped to Muntinlupa City
February 23, 2012	First shipment to Japan, Series 850D pressure transducer (transmitter) product shipped to Kanagawa
February 23, 2012	First shipment to US government, Series 860D pressure transducer (transmitter) product and Series 560D wet, harsh environment pressure transducer (transmitter) product shipped to US Army
February 2012	Increased satisfied pressure transducer (transmitter) customer base to over 50 customers
March 15, 2012	First shipment to South America, Series 750D high accuracy, auto zero pressure transducer (transmitter) product shipped to Columbia
March 20, 2012	First shipment to India, Series 860D pressure transducer (transmitter) product shipped to Mumbai
March 2012	Increased satisfied pressure transducer (transmitter) customer base to over 60 customers
April 2012	Increased satisfied pressure transducer (transmitter) customer base to over 80 customers
May 8, 2012	First shipment to China, Series 560D wet, harsh environment pressure transducer (transmitter) product shipped to Hong Kong
May 2012	Increased satisfied pressure transducer (transmitter) customer base to over 90 customers
