PRESS RELEASE
For Immediate Release

Controller Sensors LLC Adds Automation Colombia as International Distributor/Partner

September 2013

September 4, 2013 – Eden Prairie, MN –Controller Sensors LLC (“Controller Sensors”), a Delaware Limited Liability Company has announced Automation Colombia as a new partner for product supply in Colombia, South America.

If you are in Colombia and need of a differential pressure transducer (transmitter), contact your local Automation Colombia representative or visit their website at www.automation.com.co. You can also visit the Controller Sensors’ website www.controllersensors.com which offers quick and easy access to product specifications and installation instructions. Customers can use our “Help ME Choose” product selection guide to assist in determining the correct product for their application. Users can also access application information related to HVAC and medical industries.

Controller Sensors and Automation Colombia are here to provide your building automation pressure transducer (transmitter) needs. We look forward to supporting you.

Visit our website at: www.controllersensors.com
